THE COMPANY

Raymond Feghali Co. (RTF), established in 1972, stands as a powerhouse in industrial excellence, delivering cutting-edge electro-mechanical and automation solutions across Lebanon, the Middle East, and Africa. Backed by over 50 years of expertise, we are driven by a relentless commitment to innovation, sustainability, and customer success. Our highly skilled team ensures superior quality and precision in every project, while our proven record of international partnerships reinforces our reputation as a trusted leader in industrial trade. At RTF, we don't just supply solutions, we set the benchmark for reliability, performance, and industrial progress.

01 COMPANY HISTORY

Company History

RTF –Raymond Feghali Co. is Lebanon’s trusted name in industrial innovation since 1972. With over 50 years of legacy and leadership,RTF delivers high-performance solutions across electro-mechanical systems, automation, and robotics powering industries across Lebanon, the Middle East, and Africa

1972

Raymond Feghali Co. was founded by its chairman Mr. Raymond Feghali, and it was firstly concerned with buying hydraulic and mechanical products auctions

1997

Mr. Fadi Raymond Feghali joined the company and started importing well-known brands of motors and power transmission products creating a significant quality progress

2002

A new warehouse and showroom of 1600 m2 was built in Beirut-Lebanon to assist in the development and growth of the company

2004

To enlarge the range of products, an electrical and automation department was introduced and managed by a well-educated and experienced engineers

2011

A new partnership was established in Ghana - Accra with APT (Automation and Plant Technologies LTD)

2013

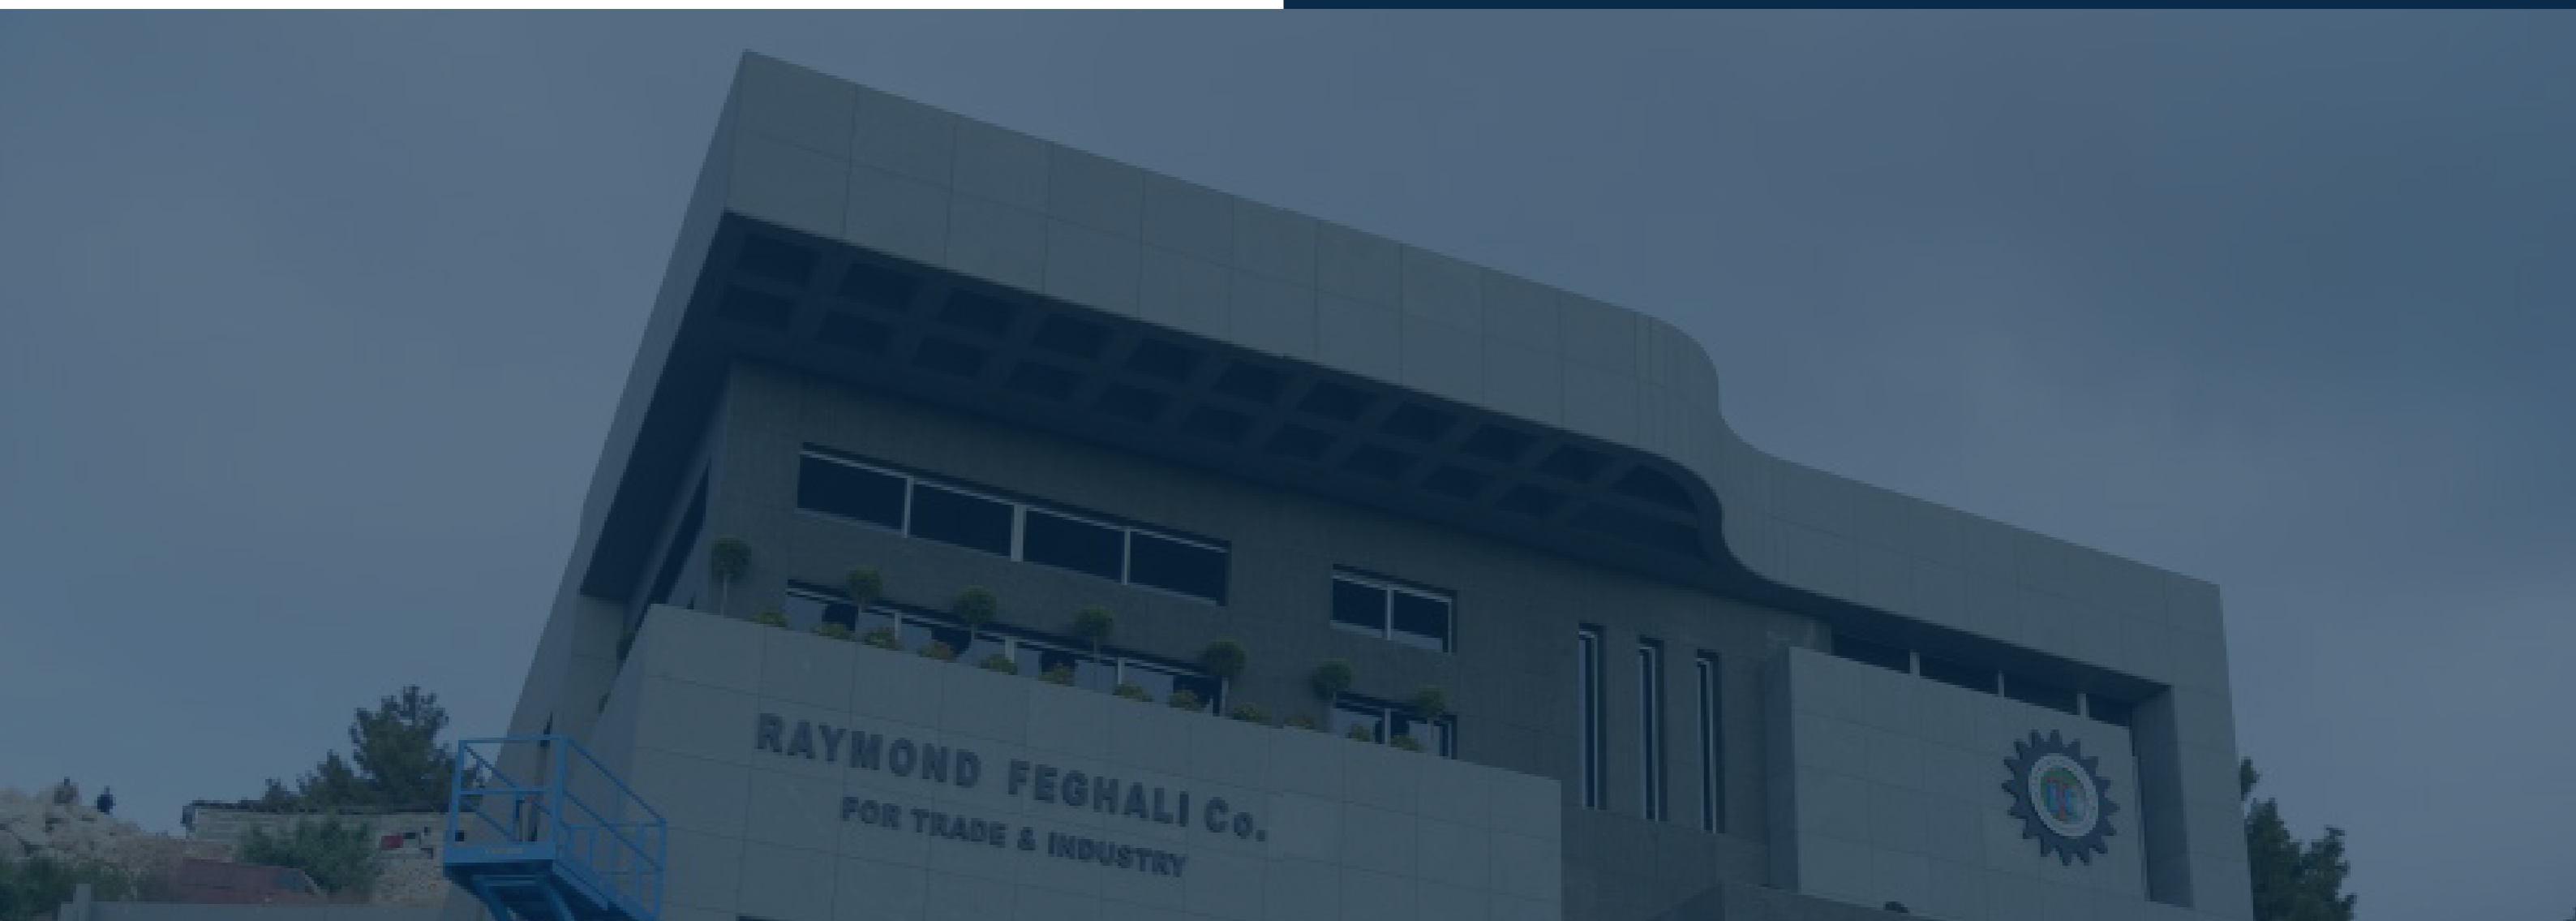

A new facility of 4000 m2 of warehouses and offices was built In Beirut - Lebanon to develop more the business & follow the fast growth of the company

2019

A new company was founded in Congo-Kinshasa under the name of GIC (Global Pour L'industrie et le Commerce)

2021

A new company was founded in Ivory Coast - Abidjan under the name of ELEMEC

Our mission and vision express our dedication to progress, innovation, and excellence, the core values that drive every aspect of our work.

02

MISSION & VISION

➔ MISSION

At Raymond Feghali Co. and RTF for Trade & Industry, our mission is to drive industrial growth through dependable supply, technical excellence, and long-term partnerships. We are not merely a vendor, but a catalyst for operational continuity, ensuring maximum uptime, enhanced performance, and sustained system reliability. Every product we deliver and every requirement we fulfill carries a greater purpose: to enable industries to operate seamlessly, advance with confidence, and achieve uninterrupted performance.

➔ VISION

Building on a legacy of trust and industrial expertise, our vision is to expand our reach and impact across Lebanon and the region by leading the shift from traditional distribution to solution-based engineering, expanding into new industries and technologies with adaptable, future-ready offerings, and earning recognition for our services, and technical expertise. We aim to lead the sector with consistency, precision, and innovation, while moving industries forward through new solutions and emerging technologies.

Industries we support

03 INDUSTRIES

ENERGY AND POWER

INDUSTRIAL PROCESSING

At Raymond Feghali Co. (RTF), we supply high-quality electrical, mechanical, and industrial components that power businesses across multiple sectors. Our expertise ensures that every industry we serve benefits from reliable products, technical support, and solutions tailored to their operational needs.

— “ —

We don't just supply components, **we deliver solutions that keep industries moving**

05 SERVICES

Industrial Parts Supply

Reliable sourcing and delivery of high-quality electro-mechanical and automation parts, ensuring durability, performance, and cost-effectiveness for every industrial need.

Automation Solutions

Design and implementation of advanced automation systems that optimize efficiency, reduce downtime, and elevate operational performance.

Technical Consulting

Expert guidance and tailored strategies to help clients select the right technologies, streamline processes, and achieve long-term industrial success.

Engineering Support

End-to-end engineering assistance, from system design and integration to troubleshooting, providing practical solutions for complex industrial challenges.

Custom Systems

Development of tailored solutions engineered to meet unique project requirements, combining innovation, precision, and sustainability.

06 KEY SOLUTIONS

Aluminum Profiles

Modular structural systems for machine frames, enclosures, and custom assemblies.

Automation

Intelligent control systems, motion control, and robotics to streamline operations.

Conveyor Components

Belts, rollers, guides and all parts required to build efficient material-handling lines.

Electric Motors

Reliable motors in a variety of sizes to deliver power and motion across applications.

Electrical Control

Switches, relays, contactors, and control panels that govern electrical systems safely.

Gear Boxes

High-precision gear reducers and gear systems to optimize torque and speed conversion.

Handling Equipment

Devices like lifters, manipulators, trolleys and lifting systems for material movement.

Hydraulics

Pumps, cylinders and valves to generate, control, and transfer fluid power.

Pneumatics

Compressed air systems, actuators, valves, and accessories for fast, clean motion control.

Plant Equipment

Heavy machinery, support tools, and infrastructure (e.g. vibrators, mixers, bulk equipment).

Power Transmissions

Belts, chains, couplings, pulleys, shafts components that transmit mechanical power.

Weighing Products

Load cells, scales, and instrumentation for precise measurement and batching.

07
KEY
SUPPLIERS

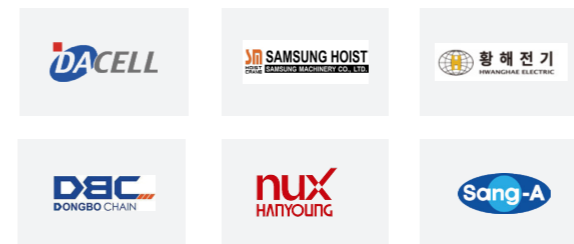

Our brands stand as a reflection of our international presence and enduring values. From Europe to China, Turkey, Taiwan, India, and Korea, each brand carries the essence of our commitment to innovation, performance, and customer trust. Together, they form a strong network that connects industries and markets across continents.
